## MORE RESOLDS, FEWER PROMISES

Committee on Streets Asks R. & H. Railway Company to Complete Work Planned.

## NO PLANT TO FURNISH POWER

Mr. Ferguson Wants to Know How Cars Will Be Operated After Tracks Are Laid.

Until it shows a little more energy in its viaduct operations, the Richmond and Henrico Railway Company has little to expect from the Council Committee on Streets, which last night tabled its request to dig in a number of streets preliminary to track laying, on the ground that it had not shown sufficient vigor in the work it now has permission to prosecute.

Mr. Ferguson, who has heretofore been an opponent of the road, but who voted for its last extension of franchise, presented the list of streets in which it was proposed to work, and a representative of the contracting firm was present and stated that he was ready to begin at once.

Mr. Ferguson thought the company should be required to finish each block as it went along, and not jump about, marking up the whole city with red lanterns at night and obstructing traffic on the streets.

## FALLS AND BREAKS LEG

Dr. Womack, of City Ambulance, Is Kept Busy With Calls to Minors.

## BUILDING PERMITS

Demand for Brick Residences Still Existing.

## WARRANT FOR EDDIE FAY'S ARREST

on Charge of Post-Office Robbery in Wisconsin.

Though Assistant District Attorney Robert H. Talley refused to say anything either in confirmation or denial, it is certain from information received here yesterday that there is now in the hands of District Attorney Lewis an indictment against Eddie Fay, charging him with robbing the post-office at Superior, Wis., in 1904, and with breaking jail at Janesville, Wis., in 1905.

Should Fay be acquitted of the charge of robbing the local post-office, he will be immediately rearrested and action taken to have him sent to Wisconsin for the Superior robbery.

It is alleged that he opened the safe there and got away with \$14,000 in stamps and currency. It could not be ascertained yesterday how many other indictments would be sent to the local authorities or what the nature of the charges would be.

"Little Dick" Harris, who seems to be getting the brunt of damaging evidence here, is not named in the Wisconsin indictment, but papers are expected charging him also with crimes in other parts of the country.

Marriage License.

## NOEL IS REFUSED APPEAL BY COURT

Norfolk County Murderer Like-ly to Die in Electric Chair May 13.

## DARING ESCAPE FROM JAIL

Shot and Badly Wounded by Posse in Pursuit, Which Necessitated Respite by Governor.

Thomas Noel, the condemned Norfolk county murderer, was refused a writ of error yesterday in the Supreme Court of Appeals. He had been sentenced to die in the electric chair on April 25, but Governor Mann respite the sentence to May 13. This respite was not granted with a view to further executive clemency, but to allow Noel to so far recover from his wounds as to permit his removal to the State Penitentiary.

Noel stands convicted of the murder of Joseph W. Sykes, a deputy sheriff of Norfolk county, on August 28, 1909. He was sentenced on February 17 to pay for his crime with the death penalty. Later he, with another prisoner, escaped from jail at Portsmouth and was recaptured after a sensational chase, which resulted in his serious wounding. He was unable to be brought to this city within the required fifteen days before execution.

Six Grounds for Appeal.

The appeal was argued of the Supreme Court on six grounds. These were: That the court refused to exclude Thomas Sawyer, a material witness, from the courtroom during the trial; that it refused to exclude evidence to the effect that the deceased died elsewhere than in Norfolk county, as was stated in the indictment; that testimony was not permitted showing the close resemblance of the prisoner to one Will Davis; that six instructions asked for by the defense were not granted; that counsel was not permitted to read the stenographic report of the evidence to the jury, and that the record failed to show that S. B. Johnson, one of the jurors, was duly summoned as such.

## FINES BOTH MEN

Justice Crutchfield Thus Settles Quarrel Between Wingfield and Austin.

A. B. Wingfield and Thomas J. Austin, white, were fined \$20 each in Police Court yesterday morning. Wingfield was charged with assaulting Austin with an axe, and the latter for beating Wingfield with his fist.

The men's stories were much at variance. Wingfield charged that Austin came home drunk and began throwing the furniture around in such a manner as to endanger his wife and Wingfield. The latter thereupon had recourse to an axe. Austin claims that Wingfield had paid too much attention to his wife, so Justice Crutchfield settled the matter with a fine upon each.

Norman Pyle, Adolph Columbus and Ralph Primrose, white youths, charged with being runaways from Washington, were dismissed.

## SAME STANDING COMMITTEE NAMED FOR ANOTHER YEAR

The annual stockholders' meeting of the Mutual Assurance Society was held in the company's offices yesterday at 1 P. M. A review of the year's work was given by the president, and the standing committee, the governing body, was re-elected as follows:

William H. Palmer, William F. Gray, B. B. Valentine, Edgar B. Taylor, Walter H. Taylor, A. B. Blair, E. B. Addison and Judge George L. Christian.

The Board of Health has named Tuesday, May 3, as "Cleaning Day," and has invited the co-operation of all the departments of the city government and of the people generally toward making it a great day in the history of Richmond.

Mayor Richard has agreed to issue a general proclamation in due time, calling on all householders to clean their premises and pile all the winter's accumulation of dust and rubbish in the back alleys, where it may be hauled away.

In order to carry out the spirit of the day, City Engineer Bolling, with the consent of the Committee on Streets, has agreed to lend all the hands and carts in the Department usually employed in grading and graveling streets, to Superintendent Henry Cohn, of the Street Cleaning Department, for use in hauling away all trash, so that by the night of "Cleaning Day" even the back alleys may present the appearance of "Spotless Town."

Last year the day was observed on the initiative of members of the Street Cleaning Committee, with marked success, and some people were so much attracted by the neat appearance of their premises, yards and cellars after a thorough cleaning that they have not since allowed the trash to accumulate.

## REBUILDING FUND GROWING RAPIDLY

Liberal Contributions to Put University College of Medicine on Its Feet.

## COMMITTEES ARE NAMED

Architects Engaged to Prepare Preliminary Plans—Alumni to Meet.

Following a meeting of the faculty of the University College of Medicine, held at the office of Dr. Stuart McGuire last night, it was announced that the subscription from the members of the faculty and board of trustees had grown from the original \$10,000, subscribed by Dr. McGuire, to \$25,000 in twenty contributions, with forty-seven members not yet approached. About \$38,000 is said to be available in insurance money on the buildings destroyed by fire and from other sources.

The following committees were appointed last night to have charge of the details of raising funds and erecting a new college building of ample proportions and permanent construction:

Campaign Committee—Dr. J. Allison Hodges, chairman; John P. Branch, L. Z. Morris, E. D. Taylor, Dr. Stuart McGuire, W. S. Forbes, Dr. Joseph A. White, R. R. C. Bryan, Dr. H. M. Taylor, Dr. L. M. Cowardin, Dr. Edward McGuire, Dr. John Dunn, Dr. Stuart McGuire, Dr. P. W. Howle and Dr. F. W. Upshur.

Building Committee—Dr. Roschier Miller, chairman; Dr. P. A. Irving, Dr. M. D. Hoge, Dr. H. S. MacLean, and William R. Miller.

Equipment Committee—A. Bolenbaugh, chairman; Dr. E. G. Hopkins, Dr. W. Lowmeyer, Dr. R. L. Simpson, Dr. Virgilus Harrison.

Curriculum Committee—Dr. A. L. Gray, chairman; Dr. W. L. Peple, Dr. R. L. Miller, Dr. J. W. Henson, Dr. H. G. Russell.

Publicity Committee—Dr. Stuart McGuire, chairman; Dr. J. Allison Hodges, Dr. Thomas W. Murrell.

Committee on Teaching Methods—Dr. G. Paul LaRouque, Dr. J. Garrett, Dr. W. L. Peple, Dr. R. L. Miller, Dr. W. L. Peple, Dr. C. Howard Lewis.

A meeting of the adjunct faculty was held in the adjoining room while the faculty was in session, and a number of committees were named to aid the committee in the faculty in carrying out the details.

President McGuire made an address to the student body yesterday morning in the amphitheatre of the Virginia Hospital, in which he outlined the plans for rebuilding, his address being met with the greatest enthusiasm on the part of the students, who pledged their support and loyalty to the college.

A mass-meeting of the students has been called for 12 noon to-day in the same hall, when it is anticipated that some formal action will be taken.

Dr. Miller, chairman of the buildings committee, said last night that Noel and Baskerville had been retained as architects, and that preliminary sketches were being drawn.

"The question now is one of floor space," he said. "We are working out how much is needed for the various laboratories and lecture halls. Then the architects will draw plans, casting the building into a harmonious whole."

It is expected that Dr. Miller and possibly the other members of the committee, with the architects, will make a trip to Philadelphia in the next few days, and possibly visit other points where there are large medical colleges to get points on college construction.

To Have Modern Building.

The new structure is to be fireproof, or very nearly so, and will be equipped with many modern conveniences, including a central heating plant, which will also heat the Virginia Hospital; improved ventilation and cold storage for the dissecting rooms and laboratories.

Both President McGuire and Proctor Miller speak with entire certainty as to the future of the college, believing that ample funds will be forthcoming not only to replace the burned building, but to build and equip an institution second to none South of Johns Hopkins in Baltimore. The school will reopen September 14, when some of the main halls of the new structure will be ready for occupancy.

The committee on equipment will arrange for furniture and laboratory equipment, having it all made up and shipped here in time for the opening of the session.

A general meeting of the alumni of the college has been called for May 16, the day preceding the commencement exercises, when it is expected that fully 1,000 graduate physicians who have passed through the University College will be in Richmond, and when it is expected that the rebuilding movement will gain decided impetus.

## SPRING SUITS

It's a subject that requires consideration now, and no stock in the city merits more of it than ours.

Gans-Rady Clothing is different from all others, because it is better and more exclusive—more like the finest to-order clothes. Spring styles are now complete.

## Gans-Rady Company

## DELANEY PROMISES GREAT DISCLOSURE

Candidate Will Tell Things on City Committee-men—Marshall Ward Citizens Listen to Speeches From Would-Be City Fathers.

Full of indignation at what heC. Powere. If everybody said that, deemed to be highly improper conduct they might as well help somebody else, on the part of one whose position is supposed to be judicial, yet unwilling to go into details without the presence of his authority.

Charles E. Richards, who was absent on duty, Mr. Richardson spoke highly of the record made in the Council by Mr. Richards.

Wants to Lead Again.

Having led the ticket two years ago, George W. Rogers expressed a desire to do so again. He had done what he had started to do. A total of \$70,000 had been spent on Lester Street, and the city had purchased five squares of wharf sites. He wanted to go back to finish his work.

Mr. Delaney promised the big audience to make his disclosures tonight at a big open air meeting of Jefferson Ward citizens at the Christ Church Association baseball grounds. This will insure a large audience.

After the meeting it developed that Mr. Delaney's promised exposure tonight in a position of impartiality as between party candidates. It was said that Mr. Rogers had placed bets on his man and had further stated that he could name the ticket which will be nominated in Thursday's primary.

For River Improvement.

Liberty Hall was amply packed with members of the East End Citizens' Association, together with a sprinkling of residents of Jefferson Ward. This organization is always full of enthusiasm, having produced the largest crowd of last fall's campaign to hear Judge R. T. W. Duke at Corcoran Hall. It is after public improvements, and is after them in a business-like way.

Every candidate who advocated public betterments, and especially work designed to further James River transportation, got plenty of applause.

A brass band was on hand and cigars were passed around for the entertainment of those in attendance. President Mal Davis, of the association, presided.

John R. Grimes, candidate for the Board of Aldermen, was the first speaker. Mr. Grimes called attention to the fact that in this race there was no third money; to be successful one must be either first or second. He was formerly in the City Council, having been elected in 1907, but not counting out.

He was used, he said, to fighting. He expected warfare if elected, and felt fully able to hold his own in the Board. He had heard a statement of street cleaning, but he did not believe any man who would vote for the 5-cent straight fare would ever appear before the people again. He was a six-for-a-quarter man. He thanked the people for their support of him in past years, and said "Don't let me down."

The band played "Auld Lang Syne." The band played, apparently without malice aforethought, played more or less appropriate airs after every speech. One of them was "Listen to the Mocking Bird," another, "Old Kentucky Home," while one candidate drew "For He's a Jolly Good Fellow."

Candidates Plead.

A. C. Nelson asked for re-election because of the experience he has gained in the position. John M. Spence urged the people to vote with due regard to the men who could give the best service.

Speaking for the City Council, A. L. Brown and Henry P. Garber promised their best efforts.

So far as J. W. Gentry knew, the newspapers had not been called upon to give headlines to wrongdoing in the committee to which he belonged.

The committee of inducements to transportation companies to use the James River was regarded as of great importance by W. B. Goode. He favored the building of city wharves.

George H. Lumsden wanted to do his best for the city, and the ward he belonged to, and he did not need to ask for votes was not looked upon with favor by Jefferson.

City Engineer Bolling introduced to the committee City Engineer LaPrade, of Manchester, who, under the terms of the consolidation ordinance, becomes an assistant on his staff. He has been assigned to supervision of city work in Washington Ward. Mr. LaPrade presented an inventory of the property of the former city of Manchester properly belonging to the Street Department, including a number of mules, carts and implements. He stated that his blue prints and maps had been turned over to Mr. Bolling and made a part of the records of the engineer's office.

REPORT AS TO BARRINGER

Honor of Victims of V. P. I. Meets To-Day at Capital.

Several members of the board of visitors of the Virginia Polytechnic Institute came to Richmond last night to attend the meeting to-day, at which will be presented the report of the committee appointed to draw up a review and verdict as to the charges against President Paul B. Barringer. Others will attend this morning.

The board will meet in secret session at 10 o'clock in the assembly room of the State Board of Education at the former city of Manchester. The session will be extended, although a minority report will be understood. It is not anticipated that the members are present the majority report will go through by a vote of 8 to 2.

## New Ideas in Jewelry

There are spring styles in jewelry as well as in other lines. Let us show them to you.

SMITH & WEBSTER, Inc.,

TIME SPECIALISTS,

Madison 1185. 612 E. Main.

## ADAM

Dressed solely for comfort. He didn't care a fig (or fig-leaf) for style.

Now-a-days we combine both, and the result is mightily pleasing.

Fashion leans toward graceful, sweeping lines on Sack Coats. Lapels are deep and softly rolled. Trousers taper toward the bottom.

Whether you're one of those men who are puzzled as to what's "It," or one of those who "wants what he wants when he wants it," our shop is your shop.

Spring Suits, \$12 to \$27.50.
